

## WOODWORKING VICES

High quality woodworking vices made from close grain grey cast iron. Corrosion resistant chrome plated mainscrews, guide rods and handles give a long and trouble-free working life. The combination of the accurately machined housing, Acme threads and the solid steel guide rods ensures a smooth sliding parallel action for the jaws, free from side or cross deflection.

## Toe-in feature

These vices features toe-in jaws that meet only at the top when fully closed, this enables the jaws to adjust and provide an even clamping force over the whole of the workpiece when under load.

## Portable Woodcraft Vice

A useful lightweight vice for the home handyman, yet robust enough for the more serious woodworker. Fitted with an integrated clamp for portable use that fits work surfaces up to 52mm thick and four screw holes allowing for permanent mounting to a workbench

Jaw width: 150mm (6in)  
 Max jaw opening: 115mm (4 1/2in)  
 Throat depth: 55mm (2in)  
 Tommy bar length: 130mm (5in)  
 Weight: 2.8kg (6lbs)  
 Dimensions: L220 x W150 x H170mm
