

Club Hammers

A general purpose hammer for building and demolition applications. Ideal for delivering close heavy blows to a cold chisel or a bolster. The striking faces are specially hardened and heat treated before being precision ground and fitted to a hickory or fibreglass handle. Made to British standard BS876:1995.

Sledge Hammers

A heavy, long handled, general purpose hammer used mainly for building work. Typical uses include setting fence posts, striking timber splitting wedges and breaking up concrete. Safety is always a prime concern when using sledge hammers as they have to withstand heavy continuous use. All Faithfull hammers are manufactured in accordance with BS876 and both striking faces are correctly hardened and precision ground and chamfered. Handles are fitted with TPR overstrike collars for added protection.

A strong neck with the added protection of a TPR overstrike collar.

Fencing Mauls

Designed for driving wooden fencing posts in to the ground. The large flat striking faces help apply an even blow across the head of the post, facilitating accurate and easy driving with minimal damage to the surface being struck.

SAFETY NOTE: Fencing Mauls should ONLY be used for hitting wood.
