

## Tile Rod Saw

Primarily designed for cutting shapes in hard glazed wall and floor tiles and many other difficult to cut materials. The circular shaped Tungsten Carbide coated blade will allow cuts to be made in any direction and the deep frame allows improved cutting access when cutting shapes in large tiles.

The saw is also suitable for cutting soft metal, plastic, brick and other similar materials and easily cuts straight lines, curves and shapes. It is manufactured with a strong steel frame and is fitted with a generous sized comfortable soft-grip handle.

**150mm Blade Length  
and Cutting Depth**

**Soft-Grip Handle**

£4.51 Ex VAT    £5.41 Inc VAT

## Kneeler Board

A versatile kneeling board with a soft foam pad attached to a tough plastic waterproof base. Suitable for use around the home, garden, garage and worksite. The kneeler both protects and provides a comfortable surface when working in a kneeling position for prolonged periods of time. Ideal for many uses around the home and garden, when decorating, tiling and cleaning.

*with soft insert*
