

## Nail Punches

Designed to drive nail heads below the surface of wood or plasterboard, these punches have knurled shafts and a square head to prevent rolling. Made from hardened and tempered steel, the slightly cupped heads help to improve contact with the nail head while driving it below surface level.

## Depth Gauge with Protractor

A versatile tool that allows the angle and depth to be measured simultaneously. The protractor features deep etched graduations 0 - 180° in opposite directions permitting the reading of both the direct and supplement angles. The rule is graduated in both imperial and metric dimensions up to 150mm (6in) and a knurled thumb-nut allows the rule to be locked at the chosen angle.

**Blade Length: 150mm (6in)**  
**Graduations: 0.5mm or 1/64in**
