

**LED SUPER THIN SITELIGHTS**

The Faithfull SMD LED Sitelight has been designed for both commercial or domestic use, and features the latest LED lighting technology. Each head contains a SMD LED that provides a high light output of 1800 lumens with the added advantage of a low power consumption and a cool running temperature that avoids the burn hazards commonly associated with halogen lighting.

- Low running temperature
- Maintenance free
- Adjustable angle
- Telescopic stands
- Impact resistant glass lens
- Energy saving LEDs\*

**90% LED Energy Saving**  
 As compared to the equivalent light output from halogen lighting.
