JUMBO FLAP DISCS

Designed for use on angle grinders, jumbo discs contain up to 40% more abrasive than standard flap discs. They are manufactured from long lasting zirconia alumina and are resin bonded for extra strength, suitable for use on wood, metal, plastic and stainless steel.

STOCK NO	QTY	DIAMETER	BORE	GRADE	GRIT	EX VAT	INC VAT

FAI FD127F	1	127mm	22mm	FINE	80G	£4.10	£4.81

FLAP WHEELS

These flexible and long lasting aluminium oxide flaps are secured with a resin bond for extra strength and a long service life. Their design ensures a consistent finish making them ideally suited for sanding shaped and curved workpieces without the risk of clogging. The wheels have a built-in arbor shaft for securing in the chuck of most power drills.
