BRICK LIFTER

Permits single-handed lifting of bricks and blocks by cantilever action. The length is adjustable to suit the task in hand. The robust construction ensures a long life and the lifter is electro plated to resist rusting.

The lifting capacity is 400mm to 670mm.

HAWKS

The hawk is a useful 'tray' from which to apply plaster or cement quickly to a wall surface by using a trowel. The lighter weight plastic hawks are an advantage, but aluminium hawks are more robust and are favoured by professionals.

NON-SLIP ALLOY HAWK A 12-inch square professional hawk in hard aluminium with a detachable soft-grip handle.

PLASTIC HAWK An extremely lightweight hawk in polyurethane with a smooth surface finish.

DECORATORS HAWK An ideal tool for the professional or DIY decorator when offering filler to cracks in walls and plasterwork.
