

BRUSHES & BROOMS

A selection of high quality hand brushes and broom heads available with Coco, Bassine or PVC bristles.

STIFF BASSINE Bassine is a natural material made from dried palm leaves. It provides good sweeping performance, but can distort if used wet.

SOFT COCO A by-product of coconut harvesting, natural coco brushes are softer compared to other natural brooms, but still provide good sweeping characteristics.

PVC Hard-wearing PVC broom heads provide an excellent sweeping performance with the added benefit that they can be used dry or wet.
