

## ALUMINIUM SASH CLAMPS

These clamps offer a low cost alternative for light to medium-duty clamping tasks. Constructed from a 'U' box section aluminium extruded bar and fitted with a cast head and foot, the construction design makes these clamps both lightweight and strong. The quick-release slide enables the clamping capacity to be changed in an instant, with adjustment slots situated at 25mm (1in) increments along the bar. Deep cut Acme threads on the mainscrew and a tommy bar combine to provide a quick and powerful clamping action.

STOCK NO	LENGTH	CAPACITY	EX VAT	INC VAT
<b>A</b> FAI SCAL36	900mm (36in)	800mm (32in)	£11.07	£13.00
FAI SCAL48	1200mm (48in)	1100mm (44in)	£12.35	£14.51

## QUICK-ACTION SASH CLAMPS

Primarily designed for clamping large items during fabrication and gluing in carpentry, joinery, boat building and allied applications. The bar is manufactured from high quality steel and features large clamping heads which are made from malleable iron. The high grade steel mainscrew has wear resistant Acme threads. The unique quick-action slide adjustment is a time-saving design and the entire clamp is protected by a rust-resistant powder coating.

STOCK NO	CAPACITY	EX VAT	INC VAT
<b>B</b> FAI SCQR24	610mm (24in)	£25.08	£29.46
FAI SCQR36	914mm (36in)	£27.20	£31.96
FAI SCQR48	1219mm (48in)	£29.12	£34.21
FAI SCQR72	1828mm (72in)	£34.43	£40.45

## 'T' BAR CLAMPS

A robust clamp for heavy-duty applications with the option of fitting to a workbench. The extra heavy 'T' bar construction and large malleable SG iron clamping heads and stock are virtually unbreakable and make this clamp extremely durable. The high grade spring steel mainscrew incorporates an Acme thread for wear resistance. The entire clamp is protected by a rust-resistant powder coating.
