

MASTIC GUNS

MASTIC GUN 425mm

This high quality steel framed mastic gun is capable of accepting a wide range of sizes of sealant and adhesive cartridges. The quick-release lever allows replacement cartridges to be fitted quickly and easily.

When applied, an instant cut-off mechanism triggers a non-drip device which prevents any unwanted flow, or 'run-on' of sealant.

A	FAI MG	MASTIC GUN	UP TO 425ml	£3.50	£4.11

MASTIC GUN 425mm HEAVY-DUTY

This heavy-duty alternative to the 'MG' standard mastic gun incorporates improved features in qualifying for the 'heavy-duty' classification. To deliver a superior performance, heavier gauge steel is used throughout the construction, and the ribbed finger grips on the larger handle ensure extra user comfort. The ratchet has a double spring mechanism for positive and precise sealant feed when the trigger is pulled, and an instant return upon release.

B	FAI MGHD	H/D MASTIC GUN	UP TO 425ml	£6.60	£7.75

MIXING PADDLES & WHEEL

Mixing paddles are used with 13mm (1/2 inch) capacity chuck power drills of at least 600w. The paddles with an M14 thread are designed for use with more powerful mixing machines of 1,000w or more when mixing adhesives, Artex, screed, mortar, plaster, paste and paint. The die-cast plasterers mixing wheel has a tubular steel shaft and is used when hand mixing plaster and Artex etc.
