Examples of post shapes that can be achieved

POST LEVEL

This specialist level is designed to ensure fence posts are upright prior to fixing. Other uses include plumbing pipes, levelling RSJs and other applications where a vertical and horizontal are needed. The durable plastic and angle plate has two acrylic horizontal vials and one vertical vial that are accurate to 1.75mm per 1M = 0.1°.

Can be fixed with either the elastic strap for wooden posts or with the magnetic base for use on RSJs and steel fence posts.

A FAI POST	POST / PIPE LEVEL 140 x 90 x 90mm	£4.60	£5.52

FENCING MELL/MAUL

These mauls are designed for driving wooden fencing posts in to the ground. The large flat striking faces help apply an even blow across the head of the post, facilitating accurate and easy driving with minimal damage to the surface being struck. For added safety each maul head is securely fitted with a 70% solid core fibreglass shaft, which has a smooth Polypropylene coating and a soft-grip, non-slip handle for added user comfort. These handles are unaffected by moisture and virtually unbreakable in normal use.

SAFETY TIP: Fencing Mauls should not be used for driving metal fencing posts.

STOCK NO	DESCRIPTION	EX VAT	INC VAT
B FAI FGMELL12	5.45kg (12lb) 82cm FIBREGLASS SHAFT	£40.52	£48.62
FAI FGMELL14	6.35kg (14lb) 82cm FIBREGLASS SHAFT	£44.34	£53.21

POST RAMMER

This heavy-duty all-steel post rammer is the ideal tool for driving posts into the ground. Simply place over the post to be driven and use the handles to raise and lower the rammer to drive the post firmly into the ground. Safer and more accurate than using a sledge or club hammer.

Maximum post capacity: 150mm (6in) diameter
Weight: 14.5kg.

C FAI POSTRAM	710 x 150mm Dia (28in x 6in Dia)	£74.93	£89.92

FENCE POST SHAPER

The fence post shaper is a unique product for creating a consistent and professional finish when cutting and shaping the tops of fence posts. Manufactured from heavy-gauge steel, the shaper is attached to the post and secured by a metal thumbscrew, to provide a template for making accurate 45° and 90° cuts to both the left and right, as well as square cuts. There is no need for marking out with a pencil, and by rotating or lifting the shaper, several different post top shapes can be achieved including a full point, a roof point, a chamfered finish, and a perfectly square finish on which to secure traditional post caps.

STOCK NO	DESCRIPTION	EX VAT	INC VAT
D FAI POST3	75mm (3in) POST SHAPER	£7.95	£9.54
FAI POST4	100mm (4in) POST SHAPER	£8.95	£10.74
