	FAI ST106	STRIPPING	100mm (4in)	£5.43	£6.38

SCRAPERS

WOOD SCRAPERS

These scrapers are made in three popular widths and are suitable for internal or external tasks.

They are generally used for removing surface coatings in various applications including boat building, flooring, furniture, woodworking, windows and cabinet making.

The ergonomically shaped handle minimises user fatigue and the scrapers are ideal for the removal of paint, varnish, lacquer and other coatings from most surfaces including wood, metal, glass and plaster.

The blades are made from tempered steel for better durability and may be resharpened to extend their working life. Spare blades are available separately and replacing them is a quick and easy task.

	STOCK NO	DESCRIPTION	SIZE	PACK QTY	EX VAT	INC VAT
E	FAI WS35	WOOD SCRAPER	35mm	1	£3.40	£3.99
