

## DIAMOND WHETSTONES

Diamond stones will sharpen steel, HSS and Tungsten Carbide tools and may also be used to abrade Glass, Ceramic Tiles and Porcelain.

Diamond stones may be used dry or with water as a lubricant. Always dry the stone after use and before storing. Clean the stone occasionally, using soapy water and a soft brush.

### DIAMOND BENCH WHETSTONES

A selection of top quality Diamond bench stones, offering the ultimate in sharpening technology. Each stone has a multiple layer of diamonds and a continuous Diamond pad for sharpening 'small tools'. The double sided stone features a 300 and 1000 grit side providing true versatility, enabling the cutting edges of most tools to be sharpened using a single stone.

The 150mm stones are supplied in a plastic non-slip base with a clear cover.

The 200mm and 300mm stones are supplied in a wooden storage case.
