

## DISCS

An extensive range of high quality abrasive discs for use on most building materials, with a wide variety of machines from small mini-grinders to large stationary cutting-off machines. Discs with a 1.2mm or 1.8mm thickness permit fine cutting where necessary on Stainless Steel and high grade metals.

### CUTTING-OFF WHEELS FOR METAL

The discs featured on this page are also available in bulk packs. Please check availability and prices with your Faithfull stockist.

It is important to choose between a metal or stone cutting disc according to the material being cut, and to ensure that the correct wheel is properly mounted.

### SAFETY TIPS

- Read the manufacturer's instructions carefully.
- Wear goggles to guard against flying chips or dust.
- Inspect the condition of the wheel frequently.
- Adjust the guard to deflect sparks and dust.
- Maintain the revs and let the wheel do the work.
- Don't use Depressed Centre cutting discs as grinding wheels.
