

NOW WITH MILLED FLUTE

WOOD DRILLS (LIP & SPUR)

Design for drilling wood, these drills have a steeper twist and a deeper flute than HSS bits, for rapid clearance of waste. They are ideal for use in dovelling jigs. Also available in a five-piece set.

DIN 3126 QUALITY

FLAT BITS

Ideal for use with mains or cordless drills. The bits are shaped for faster and cleaner cutting and are equally efficient when drilling with or against the grain. All sizes except the 6mm have a non-slip hexagonal shank with a locking mechanism which is compatible with adaptors or chucks with a built-in 'quick-release' feature. A 300mm extension shank is available for use with flat bits of 16mm and above.
