

PRUNING & CUTTING RANGE

A high quality range of pruning and cutting tools, that includes pruning saws, shears and loppers. Design features such as non-stick coated blades, safety catches and comfortable grips will be appreciated by all gardeners.

LOPPERS

The powerful action of the by-pass and anvil loppers cuts branches up to 32mm thick and a non-stick coating on the cutting blades resists rust and reduces friction. The oval profile of the strong moulded steel handles enhances rigidity and provides extra strength. Soft comfortable non-slip rubber grips minimise fatigue.

Loppers have either a by-pass or anvil action with the former best suited to cutting live wood and removing annual growth where a clean cut is essential. The 'knife action' of the anvil loppers is ideal for cutting hard woody branches and dead wood.

The 'BYLOP30R' model has a ratchet action for easy cutting with less effort.

	STOCK NO	DESCRIPTION	CUT DIA.	EX VAT	INC VAT
A	FAI ANVLOP30	ANVIL LOPPER 760mm	32mm	£15.28	£17.95
	FAI BYLOP18	BY-PASS LOPPER 455mm	25mm	£12.72	£14.94
B	FAI BYLOP30	BY-PASS LOPPER 760mm	32mm	£15.28	£17.95
C	FAI BYLOP30R	BY PASS LOPPER 760mm RATCHET		£19.01	£22.33

TWIN PACK**

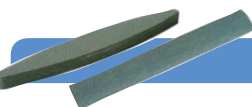

SECATEURS

Faithfull secateurs are lightweight and comfortable without compromising on performance. They have strong handles with non-slip rubber grips, and an easy spring action with a safety catch to prevent accidental opening. The non-stick coated blades resist rust and reduce friction.

Anvil secateurs are better for cutting larger cross sections or dead wood.

The by-pass model provides a clean stem cut with less bruising on live wood.

	STOCK NO	DESCRIPTION	CUTTING CAPACITY	EX VAT	INC VAT
E	FAI ANVSEC8	ANVIL SECATEURS 200mm	18mm	£7.44	£8.74
F	FAI BYSEC8T5	BY-PASS TRAD.STYLE 200mm	18mm	£6.75	£7.93
	FAI BYSEC7	BY-PASS SECATEURS 175mm	16mm	£6.38	£7.49
G	FAI BYSEC8	BY-PASS SECATEURS 200mm	18mm	£6.76	£7.94
