

CLUB HAMMER

A general purpose hammer for building and demolition applications. Ideal for delivering close heavy blows to a cold chisel or a bolster.

The striking faces are specially hardened and heat treated before being precision ground and fitted to a hickory or fibreglass handle.

SLEDGE HAMMERS

A heavy, long handled general purpose hammer used mainly for building work. Typical uses include setting fence posts, striking timber splitting wedges and breaking up concrete.

Because safety is a major concern when using sledge hammers and they have to withstand heavy applications, both striking faces are precision ground, hardened and heat treated.

The choice of handles includes fully seasoned hickory handles and fibreglass.

	STOCK NO	HANDLE	WEIGHT	EX VAT	INC VAT
D	FAI FG7	FIBREGLASS	3.18kg (7lb)	£24.95	£29.31
