Crimped & pinned threaded brass connectors

DRAIN ROD SET

These rods can be used to clean and remove obstructions from most domestic 100mm (4in) underground drainage pipes.

The set consists of ten flexible, screw together rods which can reach up to 9M long when fully assembled. Each 920mm polypropylene drain rod has crimped and pinned brass connectors for extra strength and the kit is supplied complete with a 100mm rubber plunger with brass thread insert and a 50mm double worm screw.

N.B. ALWAYS ROTATE DRAIN RODS IN A CLOCKWISE DIRECTION
