

WRENCHES

ADJUSTABLE BASIN WRENCHES

These basin wrenches have adjustable spring action jaws that maintain an automatic grip on pipe fittings. The forged steel jaws turn 180° for greater flexibility.

They are an essential tool for use on compression fittings, copper or polythene, on basins and baths.

Operates at most angles in difficult work areas

The 'BWADJ' model is equipped with adjustable jaws for working on pipe fittings from 6mm to 25mm.

The 'BWADJEXT' has a telescopic handle that extends to 400mm and will fit pipe fittings from 6mm to 25mm.

The 'BWADJL' bath wrench has a larger jaw for pipe fittings from 25mm to 50mm.

	STOCK NO	DESCRIPTION	CAPACITY	EX VAT	INC VAT
A	FAI BWADJ	ADJ. BASIN WRENCH	6 - 25mm	£10.70	£12.84
