## MARKING KNIFE

This marking knife is made from high quality steel and the hardwood handle is secured by solid brass rivets. It is designed for marking out timber prior to cutting or planing, and is bevelled on one side only to force the blade close to the straight edge in use as a guide.

<b>A</b>	FAI MKNIFE	MARKING KNIFE 7in	£4.65	£5.46

## SQUARES

The finest hardwood is used in the manufacture of these good quality bevel gauges, mitre squares and try squares.

The hardwood is stable, comfortable to use and it has a high quality appearance.

The blades have been treated against rust giving them the traditional blued steel appearance.

Other quality features of Faithfull squares are the double heavy-gauge brass facings and the careful riveting which maintains accurate angles.

### CARPENTERS MITRE SQUARE

Double brass faced and with a blued steel blade, this square is used to mark angles of 45° and 135°.
