

Brick & Chalk Lines Cotton, polypropylene, polyethylene and nylon are ideal for most applications in the building industry. The braided nylon line is particularly suitable for bricklaying work as it is stronger and more stretch resistant. 'FAI 306' ranging line is the heaviest gauge and is commonly used for marking out ground on building sites.

Medium Cotton Chalk Line

Medium cotton chalk lines are ideal for most applications in the building trade and can be used as chalk or brick lines.

Length: 18 metres
Box of 12

FAI303
