## Mechanics Pry Bar Set

This mechanics pry bar set contains three sizes of bar to help pry, lift, position and align machinery and parts into place. Each bar has a heavy-duty square shaft with an angled end which has a bevel-end chisel tip that can be easily slid into tight spaces to separate parts and is designed to provide an extra leverage point when working in narrow or confined spaces.

The large PVC handles provide a positive grip to help protect and keep your hands comfortable when applying a high leverage. These pry bars are useful for many small dismantling applications around the garage, workshop or home.

**Lengths:**

**210mm, 300mm, 450mm**

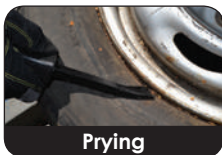

**Overall length:**  
**1.7m (67in)**

**Head width:**  
**400mm (16in)**
