

Power Torch

Powerful solid brass gas torch for plumbing, soldering and brazing work. Solid brass construction. Can be used at any angle immediately. Powerful general flame for rapid application of heat. Manual ignition.

Max Operating Temperature 1520°C

This torch is designed for direct use with gas cartridges using a CGA600 valve.

SPECIFICATIONS

Weight	266g
Ignition type	Manual
Gas consumption	204 g/h
Dimensions (mm)	L173 x W30 x H40
Optimum Power	1900 watts
Gas type	Propane
Connection Type	CGA600

FAIGZPOWER
