

## AUTO-LOCK TAPE MEASURES

High quality tape measures with an automatic blade lock and a long stand out. Each tape features an EEC class II blade with a nylon coating to protect it from abrasion and corrosion. The blades 25mm width helps provide a long stand out and is fitted with a double riveted end hook. The ABS casing is tough, impact resistant, has a soft grip TPR coating for added user comfort and is fitted with a bottom blade bump to help protect the blade as it is returned back in to its case. These tapes also feature a wrist lanyard and handy belt clip for close at hand storage.

Tough ABS soft-grip cases  
Double-riveted end hook
