Silicone Finisher

A twin pack of flexible tipped tools that produce a professional finish when smoothing most household sealants, fillers, grout and putty. The ergonomic designed handles feature a soft-grip coating with a ribbed surface, providing a positive grip for accurate control of the tool. The long handle shape also allows access in hard to reach places such as tight corners or behind taps. Simple and easy to use and clean.

Grout Scrubbing Brush

A heavy-duty narrow-headed grout scrubbing brush, fitted with stiff nylon bristles and suitable for use on all tiled surfaces. It is ideal for tackling stubborn grime, mildew and other forms of residue in hard to reach places and tight grout lines. A large soft-grip handle provides extra user comfort. It may be used in conjunction with most tile and grout cleaning detergent.
