

Multi-Purpose Vice Swivel Base

This truly versatile multi-vice is ideal for use by both mechanics and engineers. The body and sliding jaw are constructed from ductile fine grey cast iron and machined to provide a smooth and reliable clamping action. The jaws, handle and main screw assembly are made from hardened steel.

This strong durable vice offers many features, including a four point bench mounting 360° swivel base and an ingenious rotating jaw head allowing the selection of either a standard parallel serrated jaw or pipe jaws with an integral V-jaw assembly, depending on the work in hand. The required jaw head can be pivoted 180° either side of vertical and locked in position. When used in conjunction with the swivel bases ability to rotate the main body of the vice through 360° horizontally, this vice is able to provide the perfect working angle for all applications. To avoid overloading, the vice is fitted with a fused steel main handle.

Specifications:

Standard Jaws

Jaw width: 125mm
Max Jaw Opening: 124mm
Throat Depth: 70mm

Pipe Clamping Jaws

Max Jaw Opening: 124mm
Throat Depth: 70mm
Max pipe diameter: 125mm

Dimensions:

L420mm x W150mm x H225mm
Tommy Bar length: 225mm
Weight: 15kg (33.1lbs)

Double sided 360° rotating jaw assembly

360° swivel base

JAW WIDTH

125mm (5in)

OPENING

124mm (5in)

- Manufactured from high-quality grey iron casting
- Hardened steel jaws
- Parallel serrated jaws, pipe jaws and V-jaws for holding both round & flat stock
- Vice head rotates 360° with locking at any position
- Body rotates 360° on grooved swivel base and has two lockdowns to lock at any position
- Large built-in anvil
- No-pinch main screw handle

Plastic Faced Vice Jaws

Supplied in pairs, these plastic vice grips are designed to fit Faithfull vices and most other makes. They provide excellent grip without damaging soft or polished surfaces. The special rounded corner lugs reduce the risk of injury to hands and are pliable to be easily shaped to fit other vices. Special design prevents tipping inward on vice.
