

Foot Pumps

A tough steel frame with non slip rubber feet and an ergonomic treadplate with large rubber cover for improved grip. The 60cm rubber hose has a double head that accepts both Presta and Schrader valves. The analogue gauge reads up to 100psi and 7bar. The twin cylinder pump gives rapid tyre inflation and wider frame allows for better stability in use.

0-100psi / 7bar

Extra nozzle adapters are included for sports balls and water inflatables.

Single Cylinder

Filler and Spreader Set

Suitable for both automotive and decorating work. A selection of four sizes of flexible sprung stainless steel filling and spreading knives, ideal for applying fillers. The range of blade sizes make these knives ideal for use on large areas and also in confined spaces. A wide handle style provides a firm grip and aids in applying an even pressure across the blade to provide a smooth, even finish. The handles feature a soft-grip coating for user comfort and a handy hanging hole.

Flexible blade
