

## 778 Rebate Plane

Featuring a quality cast iron body with an accurately ground base, a double sided adjustable fence and an accurate depth stop. The cutter has two positions for rebate and bull nose work and can cut rebates up to 38mm (1½") wide.

**Overall length: 255mm**  
**Blade width: 38mm**

Supplied in wooden storage box.

**FAIPLANE778**  
£63.40 Ex VAT £76.08 Inc VAT

## Shoulder Bullnose Rebate Plane

Low angle plane combining the functions of a shoulder plane with the front extension fitted, a bull-nose plane using the small nose section or a chisel plane with the nose removed. The full width blade also allows use as a rebate plane and is easy to set using the knurled adjustment screw.

**Overall length: 152mm**  
**Blade width: 27mm**

Supplied in wooden storage box.

**FAIPLANESHOU**  
£98.25 Ex VAT £117.90 Inc VAT

## BLOCK PLANES

Designed for end grain work or in any situation where a single handed operation is required. The low angle cutter and fully adjustable mouth from 'wide', for coarse work, to 'narrow' for the fine shaving of awkward grain, make these planes ideal for all types of end grain work and they are available in two versions.

### 6012 Block Plane

Cutter seated at 13½°. Particularly effective on end grain and plastic laminates.

**Overall length: 160mm**  
**Blade width: 35mm**

Mouths are adjustable for coarse or fine work.
