

FLAT & ROUND BASE SPOKESHAVES

Faithful spokeshaves have virtually unbreakable malleable iron bodies, with the cutting blade held securely in place by a lever cap and two retaining screws. The cutter is fully adjustable and can be finely set for delicate work.

Spokeshave Flat

The flat face spokeshave is primarily used for chamfering and cutting convex shapes in wood.

Overall size:
250mm (10in)

Blade width:
55mm (2¹/₈in)

Spokeshaves Concave & Convex

TWIN PACK

A set of two spokeshaves made with malleable iron bodies. The concave spokeshave is ideal for shaping spindles, oars, chair and table legs. The convex spokeshave is used for recessed work.

Overall size:
240mm (9¹/₂in)

Blade width:
52mm (2¹/₁₆in)

Cabinet Scraper

Made from C60 spring steel. This scraper produces a fine finish on solid wood and veneers. Very useful for smoothing knots, burrs, crossed grain and removing old surface finishes. The cabinet scraper removes fine shavings from wood to give a very smooth finish. Unlike an abrasive it does not produce dust which can clog the grain. The cut is controlled by finger pressure to bow out the blade, varying the curve and localising the cut. Can be easily re-sharpened with a file.

Size: 150 x 60mm

FAIWSCS150
£4.14 Ex VAT £4.97 Inc VAT

Cabinet Scraper (No.80)

A versatile tool that can be used to produce a precise even finish. Ideal when used to smooth grain on large areas. A fine grey iron casting with a machined base.

Blade width:
70mm (2³/₄in)
