

HAMMERS

Faithful hammers are made in accordance with British Standard 876: 1995. Our hammer range is one of the largest in the UK and caters for most trade applications.

Choice of Handles

TUBULAR STEEL

Tubular steel strikes a good balance between structural strength and production cost.

FIBREGLASS

Fibreglass is a synthetic material that is stronger than traditional timber. It is very light in weight and its resistance to moisture is a major characteristic.

HICKORY

Hickory is the traditional shaft material for hammer handles and is recognised for its ability to absorb impact.

ALL STEEL ONE-PIECE

The highly polished one-piece construction combines style with quality and safety. The narrow shaft enhances weight distribution and balance. The vinyl moulded handle is bonded to the shaft to maximise shock absorption and comfort.

BEECH

Beech is a traditional wood used for many carpenters tools. Its straight grain has good strength properties and high abrasion resistance.

Hammer Wedges

Each pack contains one wooden wedge and two metal ring wedges. The wedges are designed for use in conjunction with the correct wooden handle when replacing damaged handles on hammers, axes and other striking tools.

	WOODEN WEDGE SIZE (H, W)	METAL RING WEDGE SIZE (L, DIA)	FOR HEAD WEIGHTS	Ex VAT	Inc VAT
FAIHW1N	18 x 25mm	11 x 8mm	4oz to 1lb	£2.89	£3.47
FAIHW2N	25 x 35mm	13.7 x 10mm	1lb to 2.5lbs	£3.48	£4.18
FAIHW3N	30 x 30mm	23 x 13mm	3lb to 7lbs	£3.71	£4.45
FAIHW4N	30 x 40mm	23 x 13mm	10lb to 14lbs	£4.23	£5.08
FAIHW5N	62 x 65mm	24.2 x 15mm	Axe Heads	£4.99	£5.99

SAFETY TIP

- Wear safety spectacles, or goggles, when hammering
- Never use hammers to strike hardened metal
- Strike squarely and avoid glancing blows
- Never strike with the side of a hammer
- Do not use a hammer with a loose or damaged head
- Remember that left for a long time in very dry conditions, wood can dry out
- Always use the correct hammer for the job

NOTE Hammer wedges are NOT suitable for use with fibreglass replacement handles.

Hammer Wedge Kit

This kit includes eight malleable steel hammer wedges and four wooden wedges. Designed to provide the secure and safe attachment of a striking head to a wooden handle.

FAIHWMMBOXN
£5.88 Ex VAT
£7.06 Inc VAT

Kit Contents:

2 x Steel Wedges	1 x Wooden Wedge	Suitable for head weights:
12mm dia. (Size 1)	17mm x 25mm	4oz to 1lb
15mm dia. (size 2)	25mm x 35mm	1lb to 2.5lbs
18mm dia. (size 3)	30mm x 30mm	3lb to 7lbs
21mm dia. (size 4)	30mm x 40mm	For axe heads 10lb to 28lbs
