

### Speciality Hammers

#### Slaters Hammers

These are specialist hammers with a long thin pointed pick end for piercing and cutting holes in slates, and an opposing rectangular striking head for driving nails. An integral nail puller on the head is an added feature.

£26.84 Inc VAT

#### Walling Hammer

A walling or masons hammer features a large square striking face with the opposing end shaped as a long tapered horizontal chisel end for cutting a line around the circumference of any masonry to be split. After the cutting line is completed, a sharp blow with the striking face produces a clean cut.
