

INSULATED DIGGING TOOLS

These insulated tools conform to BS8020:2002 for working on or near live cable. They are individually tested to 10,000 volts, and guaranteed to 1,000 volts. All Faithfull insulated shovels and forks have a solid forged steel head to provide a long working life. The insulated shaft is manufactured using a solid fibreglass core which is coated with an abrasive resistant orange polymer coating and features a wide YD handle for use with gloved hands and integrated safety hand stop for added protection.

INDIVIDUALLY CODED FOR PRODUCT TRACEABILITY.
