

Impact Bits

Designed to distribute impacts evenly, preventing energy waste for efficient screw driving and incorporating torsion areas to absorb torque peaks to reduce stress at the bit tip during heavy loading. Faithfull Impact Bits are specially engineered for durability and maximum break resistance.

Energy Saving

Bit design gives even power distribution, no energy wasted in heavy loading.

Longer Life

Unique bit design and high tech multi-stage production process to ensure unrivalled service life of bit.

Torsion Zone

Absorbs torque peaks which reduces stress at the tip during heavy loading.

Specialist Composite Material

Harder and longer lasting

Product Testing

All our products are subject to vigorous and comprehensive testing. To fully test the lifespan of our new impact bits, we use an impact machine measuring the number of cycles before failure.

High grade S2 steel is heat treated to HRC = 58-61 for hardness and maximum life. The tips are precision milled for an optimised fit. This prevents screw stripping.

Pozidrive Impact Bits

	TYPE	LENGTH	QTY	Ex VAT	Inc VAT
FAISBPZ250IM	PZ2	50mm	3	£2.87	£3.44
FAISBPZ350IM	PZ3	50mm	3	£2.87	£3.44
