

Carpet Protector

Carpet protector film is a low tack adhesive film made of tough polythene designed to protect carpets without creating a trip hazard. Carpet protector must be renewed every four weeks (not suitable for thick pile carpets or laminate flooring). Protection against decorating spills. Protect your carpets against high foot traffic when moving house. Suitable for stair carpets. Simple and fast installation and removal.

Size: 600mm x 25M roll

Door Dust Sealer

A re-usable dust screen door. Ideal for use when decorating or carrying out building tasks. The dust door is simple to install and fits in place using the supplied masking tape. It can be used to temporarily isolate a working area, sealing in dust and odours. The work area can be quickly accessed via a zip open panel. The clear polythene screen construction also allows light through improving visibility and safety in the work area. After use the door can be easily removed and stored for future use.

- **Zipper on both sides**
- **Includes masking tape**

Overall size:

112 x 220cm
