

Plastic Organiser

A professional organiser with 12 x 85mm deep compartments. Supplied in sturdy carrying case with a fold flat handle and anti-shock corners for added protection. The impact resistant clear polycarbonate lid makes identifying the contents easy without opening the case. Compartments can be removed for refilling or taken to the workplace and are securely sealed when the lid is closed and locked in place.

Plastic Toolbox with Tote Tray

Offers a selection of storage options for hand tools and smaller items with a removable tote tray organiser and bit storage. Four integral compartments are built into the lid with impact resistant polycarbonate lids, two of which are transparent to enable easy identification of the contents. The sturdy centre carry handle and additional side handles are ideal for when the box is filled with heavy tools. Heavy-duty aluminium latches ensure tools are safely transported. A padlock hole is also provided on the body to prevent tool theft.
