

Plastic Mobile Tool Chest

This tool chest is the ideal combination of both tool storage and portability. The large capacity storage area has a deep removable tote tray. The integral side handles moulded in to the base allows the box to be lifted when filled with heavy tools. The reinforced ribbed lid has a 'V' shaped groove for supporting and sawing round materials and has a graduated rule for quick measurements. The two large metal latches each have a padlock hole to prevent tool theft. Fitted with sturdy plastic wheels and rubber tyres.

Graduated in centimetres and inches.

The telescopic aluminium handle allows the chest to be manoeuvred easily.

'V' sawing groove

Chest size:
L590 x W350 x H360mm

Telescopic handle

Rubber tyres

Removable tote
