

BOLT CUTTERS

These bolt cutters are very powerful and are made to withstand heavy use on a wide range of ferrous and non-ferrous metals. Suitable for cutting high-tensile steel bars, bolts, chain and metal sections. The jaws are easily adjustable

to allow for wear, or when cutting different shaped sections of metal. Fitted with soft-grip handles for user comfort. It is advisable to position the work piece as far back in the jaws as possible when cutting metal.

Centre Cut

Suitable for cutting high-tensile (H/T) steel bars, bolts, chain and metal sections.

N.B. Safety goggles should be worn at all times when using bolt cutters.
