

## STANDARD PLIERS RANGE

Designed with the handyman in mind but also meeting the needs of regular users. The soft-feel, non-slip durable handles minimise fatigue, ensure comfortable use and allow a wide jaw opening with maximum grip. The pliers are manufactured to GS Standard from chrome vanadium steel with a rust proof satin nickel finish and induction hardened cutting edges.

### Combination Pliers

Designed to grip and cut, the front section of the serrated jaws are ideal for gripping flat surfaces and the rounded serrated sections match the profiles of rods, pipes and tubing.

FAIPLC8	200mm (8in)	1.6mm	£10.32	£12.38

### Diagonal Cutting Pliers

Diagonal cutting pliers ideal for cutting medium to medium hard wire close to the flat surface. The tapered head profile is ideal for accessing confined spaces.

FAIPLDC6	160mm (6 <sup>1</sup> / <sub>4</sub> in)	1.6mm	£8.10	£9.72

### Diagonal Heavy-Duty Cutting Pliers

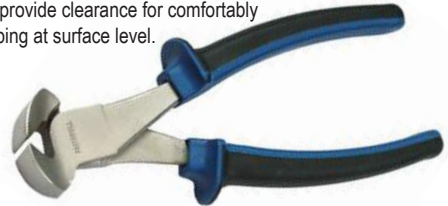

A more powerful alternative to the standard pattern. The heavy-duty cutting plier has a high leverage design which requires less effort when cutting. Ideal for cutting most medium to medium-hard wire. A 'lay-on joint' provides added strength to make these pliers ideal for heavy and repetitive tasks.

FAIPLDC7HD	180mm (7in)	1.8mm	£9.91	£11.89

### End Cutting Pliers

These robust heavy-duty pliers are ideally suited for cutting soft, medium and medium hard wire extrusions close to the surface. The hardened cutting jaws are set at 90° to the handle for cutting wire in otherwise inaccessible areas, and they provide clearance for comfortably cropping at surface level.
