

File Card Brush Kit

Two wire brushes particularly suited for clearing the cutting teeth of wood and metal files by quickly removing material shavings and swarf. The smaller straight brush is primarily used for the brushing of coarse files and rasps before using the finer card brush for final cleaning.

Paving Brush & Weeder Kit

An ideal kit for cleaning and weeding patios, block paving and decking. The paving brush features stainless steel bristles and a heavy-duty end scraper. The weeder also has a stainless steel blade. Both heads feature anti-twist and auto-lock fittings and are designed to be used with the Faithfull Auto-lock Extending Pole (left) which features an anti-twist locking button that prevents the head attachments from twisting or coming loose during use.
