Folds for easy storage

SOLD PER PAIRS

Heavy-Duty Axle Stands

These quick release ratchet action stands allow fine height adjustment and feature double locking protection with a solid steel handle and safety pin mechanism. A ductile iron centre column with a large saddle provides both strength and durability. The large feet help to resist sinking into ground surfaces.

3000kg & 6000kg (3 tonnes & 6 tonnes)

Height:
Min 390mm Max 600mm
Capacity 6000kg (each)

BOTTLE JACKS

Three popular sizes of high quality hydraulic bottle jacks. Each jack is fitted with a unique overload protection system and large base to provide added stability. All stress points are reinforced for durability. A heat treated extension screw with a serrated saddle provides a generous lifting area and a secure grip. Can be adjusted for either a low pickup point or a maximum lift height.

2000kg

Minimum Height 181mm
Lifting Height 116mm
Adjusting Height 48mm
