Heavy-Duty Grease Gun

A heavy-duty side lever grease gun that develops up to 10,000psi / 690bar from its limited short stroke action. A die cast head, easy locking plunger, ergonomic pump handle grip, positive grip plunger handle and a bulk loader with an air release valve, all combine to make this grease gun very efficient and easy to use. The gun is filled by suction action. The four jaw hydraulic coupler ensures that the grease goes exactly where its needed at the press of the lever.

Grease Gun Accessories

Connecting Hoses

Reinforced connecting hose to fit grease guns with a 1/8in BSPT thread. Allows access to nipples with a limited reach. Ideal for greasing hard to reach places. Fittings are zinc plated and hydraulically crimped on to the hose giving a working pressure of up to 5800psi - 400bar.

Length: 300mm (12in)

Mechanics Pry Bar Set

This mechanics pry bar set contains three sizes of bar to help pry, lift, position and align machinery and parts into place. Each bar has a heavy-duty square shaft with an angled end which has a bevel-end chisel tip that can be easily slid into tight spaces to separate parts and is designed to provide an extra leverage point when working in narrow or confined spaces. The large PVC handles provide a positive grip to help protect and keep your hands comfortable when applying a high leverage. These pry bars are useful for many small dismantling applications around the garage, workshop or home.
