

Soldering Irons

The Faithfull range of soldering irons are lightweight with heat resistant handles and come in 25, 40 and 80 watt versions.

Suitable for soft soldering metal alloys, brass and copper. The working temperature is reached quickly so you get a good soldered joint. A metal holder is supplied to keep the hot iron safely at rest when not in use. Ideal for fine soldering and hobby work on circuit boards, jewellery and models or for repair work on electrical items.
