

3-in-1 Detector

This versatile advanced electronic detector helps avoid costly mistakes caused by drilling into concealed power cables, gas or water pipes and removes any guesswork when securing fixtures, hanging pictures or fitting shelving by pinpointing a solid base for fixing.

Approximate detection depths:

Stud mode: Wood stud of 30x30mm: ≤14mm.

Metal mode: Iron pipe of dia. 25mm: ≤25mm.

AC mode: Typical depth of 50mm
for 90-250V at 50-60Hz.

Stud, metal & live wire

Water Leak Alarm Portable

This portable alarm can be used to protect your house and can be placed anywhere in the home where a water leak presents a potential risk; near to sinks, baths, toilets, washing machines, dishwashers, water heaters, refrigerators, aquariums, tanks, sump pumps and in garages and basements or low areas where water may gather with the potential of causing damage. A loud 80 decibel alarm will sound when this unit is in contact with water, providing an audible warning that a leak has begun and alerting the homeowner, so that preventative measures can be taken to protect their home and belongings.

Damp and Moisture Meter

A small, pocket sized damp and moisture meter that can be used to measure the moisture content in timber, paper, cardboard and hard materials such as mortar, concrete and plaster. The moisture content is displayed as a percentage reading on the LCD digital display that is equipped with a backlit function for use in dark environments. The meter can also be used to measure the ambient temperature and is compact, portable and easy to use. The meter is supplied with a probe cover for safe storage when not in use.

Specification:

Measurement Range:

Wood: 6-42%,

Material: 0.2-2.0%,

Temperature: 0-40°C

Resolution: Wood: 1%,

Hard Materials: 0.1%,

Temperature: 1°C/2°F
