

## Mixed Drill and Bit Set

This 51 piece power tool accessory kit is an excellent addition to any toolkit, whether you are a trade professional such as a builder, construction worker, carpenter or plumber to a homeowner who wants to have a wide variety of bits readily at hand. This superb set contains a selection of the most commonly used drill types and screwdriver bits for use with all types of drills. Titanium HSS drills are suitable for use on plastics, and non-ferrous metals and may be used in all types of hand and power drills. The Titanium coating resists rust and reduces friction, which makes drilling more efficient.

- Chrome vanadium screwdriver bits
- Titanium coated HSS drill bits
- Magnetic bit holder
