

GAUGES

A high quality range of gauges made from the finest hardwood, and enhanced with brass facing plates and fittings. A nylon friction pad is fitted under the knurled brass thumbscrews to reduce wear to the stems and to ensure secure, smooth and accurate setting of the gauges.

Cutting Gauge

This cutting gauge is primarily used for scoring across the grain but can also be used for cutting small strips of veneer. The re-sharpenable cutter is held securely in place by a solid brass wedge.

Marking Knife

A heavy-duty scoring knife featuring a hardwood handle and brass ferrule. The diamond shaped blade is bevelled on one side only, allowing the flat side close contact with a straight edge or cutting guide when laying out, particularly across the grain of the wood.
