

Introduction

Who are we?

Faithfull has come a long way since the business began trading in the UK with a range of cold chisels, contractor products and woodworking tools in 1989. Today, we operate from offices and a 1000 square foot showroom in Norwich and offer customers over 3,500 different product lines from groundwork and gardening to decorating and drilling and everything in between.

Quality and Standards

Quality has always been a cornerstone of the Faithfull brand. All our products are manufactured under stringent and rigorously monitored production controls ensuring they comply with standards such as CE, BS and EN where relevant.

Dependability

This approach enables us to be 100% confident. That's why the vast majority of our tools are backed by five year product guarantees.
